

TurkuSec Disarray 2025 Call for Papers

We are looking for talks in cyber-security, product security, offense and defense both. If your talk is about hacking a ship you get bonus points of course, but the conference itself is not maritime focused. Just happens on a cruise (and stays on the cruise if you like).

Talks should be about 30-45 min

The deadline for submissions is 17th of August

Last years talks are here for reference: <https://disarray.fi/talks/>
